For Immediate Release

On Tuesday December 8, 2009, the owners and staff of White Auto Body will present two refurbished vehicles to deserving individuals in the community. White Auto Body has donated a vehicle for the last ten years. This year will bring the number of car donations to twenty-three!

The objective of this program is to give someone a hand up, not a handout. Recipients of the "new" cars make a tremendous effort to improve their lives and financial standing. Reliable transportation provides more opportunities to be successful.

Individuals and organizations must first submit an application to White Auto Body. During the process, all applicants are required to explain how receiving an automobile will assist them in becoming self-sufficient. Candidates must be insurable and have a demonstrable need.

In addition to donating the "new" car, White Auto Body covers the cost of the first six months of liability insurance and all inspection and licensing fees for the vehicle. When the recipient receives their car, they have no initial out-of-pocket expenses.

One "new" car will be presented from each White Auto Body location on Tuesday December 8. 2009 at 10 am (White Auto Body West - O'Fallon, Missouri) and 2 pm (White Auto Body - Florissant, Missouri).
